

A&H Policy Experience Subgroup of AHWG had a conference call on Tuesday January 26. The subgroup is chaired by Tomasz Serbinowski.

The subgroup discussed a proposal to require that the A&H Policy Experience Exhibit be completed by state for each state in which a company has business written.

The subcommittee will pursue state reporting. Discussion during the call centered on form instructions and whether to use issue state or residence state. The subcommittee discussed this at length and was unsure how to proceed. The call ended with a decision to review and possibly follow how state reporting is currently being handled for Medicare Supplement.

The subcommittee did observe that after exposure industry will have ample opportunity to comment on the need for state reporting and that form instructions must be completed before exposure to industry.

Chester M. Lozowski, ASA MAAA
